dell'Università e della Ricerca*

AGENDA

Comprehensive national RE plans and institutional and industrial Initiatives are engaged in deploying green electricity within an integrated energy market. One year after its launch, the initiative RES4MED confirms its role of additional player to contribute to the strategies of ongoing initiatives in the Mediterranean and the Balkans, to accelerate the development of multiple renewable energy solutions and the relevant electrical infrastructure.

For this reason RES4MED in its complementary role of network of networks, gathers in Milano key stakeholders to assess the status and discuss perspectives on:

- the role of priority actors
- a credible time schedule
- effective business models

08.30 Gate of Fair opens and registration

9.00 Welcome

Corrado Clini, Director, Ministry for Environment, Land and Sea
Paolo Andrea Colombo, Enel President

9.30 Opening Session

- **The Mediterranean energy context**
Bruno Lescoeur, CEO Edison and Vice President OME
- **RE solution for a decarbonized Med electrical system**
Francesco Starace, President RES4MED and CEO Enel Green Power

10.00 Signature MoU OME - RES4MED and MedGrid - RES4MED

10.15 Panel discussion on status and perspective of other Med Initiatives

Moderator: Roberto Vigotti, Secretary General RES4MED

P. Van Son, Managing Director Dii

J.Kowal, DG MedGrid

H.Ben Jannet Allal, DG OME

M. Gozen Turkish Regulator, MedReg

A. Fiocco, MEDTSO

Leila Ouled Ali Bahri, DG MedRec

Francesco Starace, President RES4MED and CEO Enel Green Power

11.30 The perspectives of Southern & Eastern Med countries

Moderator: Gus Schellekens, PwC, Director of Global Sustainability and Climate Change Team

A.El Hafidi, General Director of Morocco Energy Ministry

Chahrazed Bouzid, Deputy Director RE at Energy Ministry, Algeria

Mohamed Ridha Ben Mosbah, Business Strategy Consultant and Former CEO of STEG Tunisia

Ziad Jebri Sabra, Director of Renewable Energy Department, Ministry of Energy, Jordan

Marwan Owaygen, Policy Advisor UNDP for Arab States Egypt

Michele Appendino, President Solar Ventures - representing Kawar Energy Jordan

13.00 Lunch break

14.15 The way forward: analysis and proposed strategies

Moderator: Matteo Codazzi, CEO CESI

Getting started. Dii policy recommendations on how an integrated EUMENA power system can be realized, to give orientation on policy, investment, and funding for renewable energy in the coming decades

Dominik Ruderer, Dii

The Socio economic impacts of RE projects in the Mediterranean

Matthew Sohm, Dii

Towards an Interconnected Mediterranean Grid: Institutional Framework and Regulatory Perspectives

Jean Kowal, MedGrid

Houda Ben Jannet Allal, OME

15.30 RES4MED a year after: first deliverables

Moderator: Andrea Testi, Edison

Distributed generation: Smart Cities in the Mediterranean: RES4MED's proposal for cooperation initiatives in the SEMED countries

Paolo Gentili, PwC

Maurizio Pellegrini, FUB

Centralised vs distributed power generation in developing countries: what's smarter?

Carlo Zorzoli, EnelGP

Sustainable Generation in Village Power: a Social Path

Agostino Re Rebaudengo, Asja

Infrastructure:

RES generation deployment into the Maghreb power systems: a pre-requisite for the future trans-Mediterranean central corridor

Bruno Cova, CESI

Power generation:

Pv as reliable and competitive player in energy market: lesson learned for pv parity in Italy and prospective for South East MED

Giovanni Simoni, ASSOSOLARE

High level education:

The RES4MED proposal of a multidisciplinary Master on renewable energies

Ennio Macchi, Politecnico di Milano

17.00 Conclusions: the way forward and the benefit of collaboration

Francesco Starace, President RES4MED and CEO Enel Green Power
