

1st of OCTOBER 2018 – BFP AND ONRENEWABLES ANNOUNCE A JOIN VENTURE

The joint venture, BFP OnRenewables S.L. will allow BFP to serve its customers in Spain and LATAM with local present and allow OnRenewables to accelerate his footprint expansion.

BFP and OnRenewables are glad to announce the creation of **BFP OnRenewables SL**, a joint venture company with head office in Marbella, Spain.

The joint venture, BFP OnRenewables S.L. will allow BFP to serve its customers in Spain and LATAM with local present and allow OnRenewables to accelerate his footprint expansion.

“The joint venture represents BFP’s capacity to adapt to changing international needs with the objective of providing technical and engineering expertise in a territory with high renewable potential and growing market, we believe OnRenewables will be a valuable partner in maximizing and channel those goals too”, said Mr. Gianluca B. Biscotti, Chairman of BFP.

“We are looking forward to working with BFP because their expertise, market penetration and interest on our natural-local markets. With our local knowledge, expertise and dynamism we believe BFP has what they need to succeed in Spain and LATAM while OnRenewables will be able to accelerate his footprint expansion”, said, Rafael Peris, CEO of OnRenewables

BFP OnRenewables represents a joint venture between the Italian **BFP** and the Spanish **OnRenewables**, two fresh and flexible companies managed by skilled, enthusiastic and charismatic engineers betting on the power market of the future, the Renewables.

Two worldwide engineering and consulting companies in the renewable market have finally joined their forces and their multidisciplinary staff in order to grant the highest quality and expertise in the Spanish and Latin American renewable market.

About BFP:

BFP boasts more than 14 years of experience in the renewable market providing technical services for the production, transmission and supply of electrical energy from renewable sources such as sun, wind and water. With a multidisciplinary and highly experienced staff of more than 35 engineers, BFP ensures the complete and integrated management of all design and implementation processes, all performed *in-house*, providing engineering and consultancy services in all continents for a total of more than 1.5 GW on PV plants and over 1 GW on wind farms.

About OnRenewables:

OnRenewables is a young company founded by two partners with more than 12 years of experience in renewables in six different countries. It is a global engineering and project management company for the solar photovoltaic sector with a multidisciplinary staff of more than 20 resources among engineers and craftsmen. It boasts over 2 GW engineered renewables power plants for interna-

tional IPPs, EPC Contractors and Developers. The expertise of its team allows OnR to carry out complex projects in a flexible, dynamic, fast and cost-efficient way all over the world.

Born from the combined expertise of two international engineering companies, **BFP OnRenewables** brings together professionals from diverse disciplines that offer complementary skills. This joined force is the culmination of a successful global experience and know-how gained over years. Combining two global engineering experiences together with a local presence in Spain, with its cultural and historical influence in Latin America, we strongly believe that we are the best partner to support clients with renewable projects in Spain and LATAM.
